Elementary French

Course Description:

This course provides the students with the basic elements of the French language. Special emphasis is put on conversation using a fundamental vocabulary of about 700 words. Students will be trained to recognize and use all patterns of expressions that are frequently encountered in the syntax of the French language. The course also explores the diversity and influence of the French culture in a global context.

Objectives:

This course aims to:

- help students to achieve basic proficiency in the French language through the skills of reading, writing, listening and speaking.
- provide students with the skills that will enable them to communicate orally and to some degree in writing in personal and career context with French native speakers and with people of other nationalities who have also learned this language.
- broaden the students’ cultural understanding and appreciation of the French culture and its similarities and differences from the Philippine culture.

Number of Hours: 36 hours
