Basic Korean

Course Description:

The Basic Korean (Hangul) language class is an introductory Korean language course designed for Filipinos who do not have any knowledge of the Korean language. This course starts with the essentials of Korean language beginning with the introduction of how Korean language was made, how to write the Korean alphabet, how to pronounce Korean letters, and how to use Korean sentences in real-life situations. Students also learn about the Korean society and culture which is different from the Filipino culture, traditions, and practices.

Number of Hours: 36 hours

Objectives:

In this course, the students are expected to:

- Exhibit understanding of the background of Korean language;
- Write and read simple sentences using the Korean language;
- Use basic everyday expressions in Korean language; and
- Show appreciation of both the Korean and Philippine culture as they see the similarities and differences between the two languages.
